

CampusGig Business Plan & Financial Projection

Team : Zero Code

Business: CampusGig

Funding Request: 250,000 – 1,000,000 FCFA

PROBLEM STATEMENT

Cameroon is facing a growing youth employment crisis. While the official unemployment rate reported by the National Institute of Statistics (INS) stands between 3.8% and 5.9%, these figures do not fully capture the reality of the labor market. The greater challenge lies in underemployment, skills mismatch, and the dominance of the informal economy, which accounts for approximately 86.6% of all jobs in the country. Thousands of young people possess valuable skills in software development, graphic design, digital marketing, content creation, photography, videography, and other professional services and non Professional skills and services, yet struggle to convert these skills into sustainable income opportunities.

The situation is particularly severe among educated youth. According to INS data, unemployment rates increase with education level, reaching approximately 17.6% among individuals with higher education qualifications. This highlights a significant disconnect between the skills young people acquire and the opportunities available in the labor market. Every year, more graduates, students, freelancers, and self-taught professionals enter the workforce, but the creation of quality employment opportunities does not keep pace with this growth.

Beyond unemployment, trust remains one of the largest barriers preventing talented young people from accessing work opportunities. Many businesses and individuals are reluctant to hire students and freelancers because they lack professional certifications, extensive work experience, or recognized credentials. As a result, talent is often judged by certificates rather than demonstrated ability, preventing many capable individuals from participating in the economy despite possessing the skills required to deliver quality work.

Existing platforms such as LinkedIn, Upwork, and other global freelance marketplaces provide opportunities for professionals, but they are primarily designed for highly experienced individuals competing in international markets. Young Cameroonian talents often struggle for visibility among millions of global users and find it difficult to secure clients. Even when profiles receive views, many of those interactions do not come from genuine buyers or potential hirers. Consequently, many talented individuals remain overlooked despite having the ability to provide valuable services.

At the same time, businesses, startups, entrepreneurs, NGOs, and individuals seeking affordable local talent often face difficulties identifying trustworthy service providers. There is currently no dedicated platform specifically designed to connect Cameroonian hirers with local students, freelancers, and emerging professionals in a trusted and structured environment.

The result is a fragmented ecosystem where opportunities exist, talent exists, and demand exists, yet there is no effective bridge connecting all three. This leads to lost economic potential, increased poverty, reduced income generation, and slower economic growth. Without intervention, thousands of talented young people will continue to remain underutilized while businesses struggle to access the skills they need to grow.

SOLUTION

CampusGig is a localized digital talent marketplace designed to bridge the gap between skilled young talent and businesses seeking affordable, reliable services. The platform empowers students, freelancers, graduates, and self-taught professionals to showcase their abilities through professional portfolios, completed projects, ratings, and verified profiles, allowing hirers to evaluate talent based on proven skills rather than academic certificates alone.

Unlike traditional employment platforms that prioritize established professionals, CampusGig is specifically designed to create opportunities for emerging talent. The platform enables businesses and individuals to search for specific skills, discover qualified candidates, review their portfolios, and hire with confidence. By shifting the

focus from credentials to demonstrated competence, CampusGig helps unlock opportunities for thousands of capable young people who would otherwise remain excluded from the labor market.

To address the critical issue of trust, CampusGig incorporates profile verification, portfolio-based assessments, ratings and reviews, mentorship-driven quality assurance, and secure escrow-backed transactions. These features create confidence for both hirers and service providers, reducing the risk of fraud and improving the likelihood of successful project completion.

CampusGig also offers a unique local-first approach. During its initial growth phase, the platform focuses exclusively on Cameroon, ensuring that portfolio views, searches, and opportunities come from individuals and organizations within the local market. This significantly increases the probability that profile visitors are genuine potential clients rather than casual viewers. For students and freelancers, this means greater visibility, more relevant opportunities, and a higher likelihood of generating income from their skills.

Additionally, the platform introduces premium visibility options that allow top-performing talents to gain increased exposure while creating a sustainable revenue stream for the business. Over time, CampusGig will integrate a network of experienced mentors and industry professionals who can validate skills, guide emerging talent, and strengthen the overall quality of services offered on the platform.

By connecting talent with opportunity, building trust, increasing visibility for local professionals, and creating a pathway for young people to monetize their skills, CampusGig seeks to transform how talent is discovered and hired in Cameroon. The platform's long-term vision is to become Africa's leading talent marketplace, driving economic empowerment, job creation, entrepreneurship, and sustainable growth across the continent.

Business Model Canvas

Key Partners: Universities, student associations, Local Businesses, Mobile Money providers, startup incubators, mentors, SMEs, payment partners.

Key Activities: Platform development, user verification, matching, escrow management, support, onboarding, marketing.

Key Resources: Platform, development team, talent database, employer network, brand, mentor network.

Value Proposition: Secure hiring, trusted talent, Mobile Money payouts/Orange Money, escrow protection, verified portfolios.

Customer Relationships: Self-service platform, community support, trust scores, mentorship ecosystem.

Customer Segments: Students, freelancers, graduates, SMEs, startups, NGOs, local businesses.

Channels: University ambassadors, social media, referrals, WhatsApp communities, campus events, Hackathons, Conferences.

Cost Structure: Hosting, infrastructure, payment processing, marketing, legal compliance, customer support, branding.

Revenue Streams: 10% commission on gigs, premium subscriptions (2,000 FCFA/month), featured listings, sponsored opportunities, premium business accounts.

Market Opportunity

CampusGig targets over 250,000 university students in Cameroon, plus multiple non University talents. The platform addresses youth unemployment while helping businesses

access affordable talent. Current waitlist traction includes approximately 50 students and 10 hirers after the first month.

Revenue Model

1. 10% commission on completed gigs.
2. Premium student subscription: 2,000 FCFA/month.
3. Featured gig listings.
4. Sponsored opportunities.
5. Premium business accounts.
6. Future advertising revenue(Real Estate adverts, brand adverts etc).

Financial Projections

Financial Projection - Year 1

Assumptions

Students: 500

Hirers: 50

Average Gig Value: 5,000 FCFA

Completed Gigs per Month: 200

Commission Rate: 10%

Commission Revenue Calculation

$200 \text{ gigs} \times 5,000 \text{ FCFA} = 1,000,000 \text{ FCFA}$ monthly transaction volume

$1,000,000 \text{ FCFA} \times 10\% \text{ commission} = 100,000 \text{ FCFA}$ monthly revenue

$100,000 \text{ FCFA} \times 12 \text{ months} = 1,200,000 \text{ FCFA}$ yearly commission revenue

Premium Revenue Calculation

$50 \text{ premium subscribers} \times 2,000 \text{ FCFA} = 100,000 \text{ FCFA monthly premium revenue}$

$100,000 \text{ FCFA} \times 12 \text{ months} = 1,200,000 \text{ FCFA yearly premium revenue}$

Total Year 1 Revenue

$1,200,000 \text{ FCFA} + 1,200,000 \text{ FCFA} = 2,400,000 \text{ FCFA}$

Financial Projection - Year 2

Assumptions

Students: 2,000

Hirers: 200

Completed Gigs per Month: 800

Commission Revenue

$800 \times 5,000 \text{ FCFA} = 4,000,000 \text{ FCFA monthly transaction volume}$

$4,000,000 \text{ FCFA} \times 10\% = 400,000 \text{ FCFA monthly revenue}$

$400,000 \text{ FCFA} \times 12 = 4,800,000 \text{ FCFA yearly commission revenue}$

Premium Revenue

$150 \text{ premium users} \times 2,000 \text{ FCFA} = 300,000 \text{ FCFA monthly}$

$300,000 \text{ FCFA} \times 12 = 3,600,000 \text{ FCFA yearly}$

Total Year 2 Revenue

$$4,800,000 \text{ FCFA} + 3,600,000 \text{ FCFA} = 8,400,000 \text{ FCFA}$$

Financial Projection - Year 3

Assumptions

Students: 5,000

Hirers: 500

Completed Gigs per Month: 2,000

Commission Revenue

$$2,000 \times 5,000 \text{ FCFA} = 10,000,000 \text{ FCFA monthly transaction volume}$$

$$10,000,000 \text{ FCFA} \times 10\% = 1,000,000 \text{ FCFA monthly revenue}$$

$$1,000,000 \text{ FCFA} \times 12 = 12,000,000 \text{ FCFA yearly}$$

Premium Revenue

$$400 \text{ premium users} \times 2,000 \text{ FCFA} = 800,000 \text{ FCFA monthly}$$

$$800,000 \text{ FCFA} \times 12 = 9,600,000 \text{ FCFA yearly}$$

Total Year 3 Revenue

$$12,000,000 \text{ FCFA} + 9,600,000 \text{ FCFA} = 21,600,000 \text{ FCFA}$$

Funding Requirement

CampusGig seeks 250,000–1,000,000 FCFA in seed support and mentorship to complete deployment, strengthen security, onboard university communities, execute marketing campaigns, and establish strategic partnerships.

Competitive Advantages

- Student-focused platform.
- Mobile Money native/Orange Money native.
- Escrow-based trust model.
- Portfolio-driven hiring.
- Premium visibility system.
- University-centered growth strategy.
- Mentor-supported quality assurance.

Roadmap

- Launch MVP.
- University partnerships.
- AI-powered talent matching.
- Advanced hirer analytics.
- Expansion across Cameroon.
- Long-term Pan-African growth.
